PLANNING LIBRARY BUILDINGS

a Selected Bibliography

Bibliographic Services Division
Professional Services Branch
Saskatchewan Library
1352 Winnipeg Street
Regina, Saskatchewan

January 1985

ISBN: 0-919059-11-2

INTRODUCTION

This bibliography consists of a selection of books, AV materials, articles and floor plans of some libraries which are held in the Saskatchewan Library collection. These floor plans may be useful for those planning a new library building. Entries in the bibliography are arranged by author or main entry. The bibliography is divided into five parts:

- (1) Books ————— pages 1-14
- (2) Audio-Visual Material — page 15
- (3) Periodical Articles — pages 15-32
- (4) Floor Plans of Libraries— pages 32-38
 - Floor plans are sub-divided into the following geographical areas:
 - 1. Saskatchewan — pages 32-36
 - 2. Other Provinces — pages 36-37
 - 3. Other Countries — pages 37-38
- (5) Subject Index

Eight broad subject headings are used to identify the material included in this bibliography. Floor plans of libraries listed in part four are not indexed.

Most of the material included in this bibliography is available from the Saskatchewan Library's professional collection. Others can be arranged on request through our interlibrary loan service.

1. BOOKS

1. American Library Association. The use of carpeting in libraries. Chicago: American Library Association, 1962. 12 p. (mimeographed)

Survey by the Library Technology Project giving pros and cons on the subject.
2. American Library Association. Ad Hoc Committee on the Physical Facilities of Libraries. Measurement and comparison of physical facilities for libraries. American Library Association, 1970. 23 p.
3. American Library Association. Architecture Committee for Public Libraries. Plans for six public library buildings, report of the meeting of the Architecture Committee for Public Libraries ... San Francisco, 1958. Edited by Ruth M. White. American Library Association, 1959. 58 p.
4. American Library Association. Buildings Committee. Planning a library building, the major steps; proceedings of the institute sponsored by the American Library Association Buildings Committee at St. Paul, Minnesota, June 19-20, 1954. Hoyt R. Galvin, editor; Kathryn A. Devereaux, assistant editor. American Library Association, 1955. 80 p. illus.
5. American Library Association. Committee on Library Architecture and Building Planning. Buildings for small public libraries; remodeled and adapted, including new designs for branches. Prepared by Ernest I. Miller. American Library Association, 1950. 39 p.
6. American Library Association. Library Administration Division. Section on Library Organization and Management. Measurement and comparison of physical facilities for libraries. Chicago: American Library Association, 1970. 39 p.
7. American Library Association. Library Technology Project. Protecting the library and its resources, a guide to physical protection and insurance; report of a study conducted by Gage-Babcock & Associates, Inc., American Library Association, c1963. 322 p.
8. American Library Association Yearbook. Chicago: American Library Association, 1976. p. 170-174. On furniture and equipment.

9. Association of College and Research Libraries. Buildings Committee. Proceedings of the meetings of the library plans institute. 1st-1952- . Chicago, American Library Association, 1952- .
10. Berkeley, Bernard. Floors: Selection and maintenance. Library Technology Program Publication No. 13. Chicago: American Library Association, 1968. 330 p.

Written especially for librarians involved in the choice of floor materials, the beginning chapters consider selection criteria and maintenance. Description, cost, installation techniques and maintenance problems are given for resilient floor coverings, carpet, masonry, wood and formed-in-place floors.
11. Berriman, Sidney George. British public library buildings. Deutsch, 1966. 260 p. illus., plans.

At head of title: BPLB.
12. Better library buildings: architect/librarian co-operation in their design: the proceedings of a seminar organized by the Architect/Librarian Working Party of the London and Home Counties Branch of the Library Association, 14th-15th March, 1969; edited by Herbert Ward. London, Library Association, 1969. 108 p.
13. Blueprint for the '70s: a seminar on library planning, New York, 1971. Planning the special library; a project of the New York chapter, SLA; edited by Ellis Mount. Special Libraries Association, 1972.
14. Boaz, Martha. A living library: planning public buildings for cities of 100,000 or less. Los Angeles, University of Southern California Press, 1957.

Excellent help for those planning a small public library.
15. Brawne, Michael. Libraries; architecture and equipment. Translated into German by Antje Pehnt. New York, Praeger Publishers, 1970. 187 p. illus., plans.

English and German.
16. Brown, E.G. Modern branch libraries and libraries in systems. Scarecrow Press, 1970. 747 p.

17. Brown, Harry Faulkner, editor. Planning the academic library; Metcalf and Ellsworth at York. Oriel, 1971. 97 p.
18. Browne, M. Libraries: architecture and equipment. New York, Praeger Publishing, 1970. 187 p.

A heavily illustrated guide to various furniture, styles and interior designs for public libraries.

19. Building renovation in ARL libraries (special kit #97). Washington D.C.: Association of Research Libraries, 1983. 99 p. ISSN: 1060-3574.
20. Building standards for the handicapped 1975 (with metric supplements). Associate Committee on the National Research Council of Canada, Ottawa, 1975.
21. Canadian Library Association. Library buildings for Canada. Ottawa, The Association, 1947.
22. Canadian Library Association. Committee on Architecture and Building. List of Canadian architects with experience in designing library buildings. Ottawa, The Association, 1959. 11 p.

David C. Appelt, Chairman of the Committee on Architecture and Building.

23. Clark, John Willis. The care of books; an essay on the development of libraries and their fittings, from the earliest times to the end of the eighteenth century. 2nd edition. Variorum Reprints, 1975. 352 p., 46 p. of plates, illus., plans.

Facsimile reprint of: 2nd edition. Cambridge: Cambridge University Press, 1902.
24. Classical Music Recordings: for Home and Library. Chicago: American Library Association, 1976. Has equipment reviews.
25. Cohen, Aaron. Designing and space planning for libraries: a behavioral guide. New York, R.R. Bowker Co., 1979. 250 p. illus.

26. Colloquium on National Library Buildings, Rome, 1973. National Library buildings: proceedings of the colloquium held in Rome, 3-6 September, 1973. Pullach: Verlag Dokumentation, 1975. 144 p.

Organized by the IFLA Committee on Library Buildings.

27. Denmark. State Library. Committee for the Compilation of Standards for Library Buildings. Public library buildings; standards and type plans for library premises in areas with populations of between 5,000 and 25,000, originally issued by the Danish State Library Inspectorate's Committee for the Compilation of Standards for Library Buildings in 1967; under the editorship of Sven Plovgaard, and now translated from the Danish by Oliver Stallybrass. London, Library Association, 1971. 131 p. illus., plans.
28. Dartmouth library and cultural center: a preliminary design and feasibility analysis. Prepared for the City of Dartmouth by Lydon Lynch Associates Limited. Dartmouth, Nova Scotia. s.n., 1982. 36 p. (LDC/VF).
29. DeProspero, Ernest R. The library building consultant: role and responsibility; report of a seminar. New Brunswick, N.J., Rutgers University Press, 1969. 110 p.
- Papers of a 1968 seminar held by the Graduate School of Library Service at Rutgers.
30. Designing a medium-sized public library. London: HMSO (Department of Education and Sciences), 1981. 83 p. (Building bulletin; no. 60) (Library information series; no. 11).
31. Draper, James. Interior design for libraries. American Library Association, 1979.
32. Educational Facilities Laboratories. The impact of technology on the library building. New York, Educational Facilities Laboratories, 1967. 20 p.
33. Ellsworth, Ralph Eugene. Academic library buildings: a guide to architectural issues and solutions. Associated University Press, 1973. 530 p. illus., bibliog.

34. Ellsworth, Ralph Eugene. Buildings. Shelves by Louis Kaplan. Storage warehouses. New Brunswick, N.J., Graduate School of Library Service, Rutgers State University, 1960. 151, 41, 51 p.

Cover title: The state of the library art.
35. Ellsworth, Ralph Eugene. Economics of book storage in college and university libraries. Washington, Association of Research Libraries and Scarecrow Press, 1969. 135 p.
36. Ellsworth, Ralph Eugene. Planning manual for academic library buildings. Scarecrow Press, 1973. 159 p. illus., bibliog.
37. Facilities funding finesse: proceedings of the ALA 1980 New York Conference program: financing and promotion of public library facilities. Sponsored by ... The Library Administration and Management Association. Editor: Richard B. Hall. Chicago, American Library Association, 1982. 40 p. ISBN: 0-8389-6481-8.
38. Faulkner, Waldron. Architecture and colour. New York: Wiley-Interscience, 1972.

Valuable information on different building materials and use of each type. Discussion of colour is included.
39. Foster, D. Snell Inc. Carpet underlays: performance characteristics. New York: Institutional Research Council, 1967. 30 p.
40. Frank, Sylvia. Library planning guide. North Battleford: Lakeland Library Region, 1984. Various paging.
41. Fuhlrott, Rolf and Dewe, M., editors. Library interior layout and design: proceedings of the seminar held in Frederiksdal, Denmark, June 16-20, 1980. K.G. Sauer, 1982. 145 p. IFLA publication number 24.
42. Fussler, Herman Howe. Library buildings for library service. Chicago, American Library Association, 1947. 216 p. illus., bibliog.
43. Gavin, Hoyt Rees. The small public library building. Paris, UNESCO, c1959. 139 p. illus., plans, bibliog.

44. Gawrecki, Drahoslav. Compact library shelving; translated from the Czech by Stanislav Rehak. (Library Technology Program Publication. no. 14. Chicago: American Library Association, 1958. 120 p.

Types of compact shelving are reviewed.

45. Heintze, Ingeborg. Shelving for periodicals. Lund, Sweden, Bibliotekstjänst, 1966. 71 p. illus.

Description of horizontal, vertical, sloping and exhibition shelving.

46. Hjelmqvist, Bengt, comp. Swedish public libraries in pictures: 2/ libraries in medium sized cities. Lund: Bibliotekstjänst, 1965. 83 p. illus.

47. Holt, Raymond M. An architectural strategy for change. Chicago, American Library Association, 1976. 149 p.

The major concern of the participants in this Institute was that the renovations and remodelling taking place now make adequate provision for future growth to prevent libraries from being obsolete as soon as completed. ISBN: 0-8389-0210-3.

48. Illuminating Engineering Society. Lighting of libraries. London, IES Technical Report No. 8, 1966. 18 p.

A report of the Illuminating Engineering Society's official recommendations and standards for lighting in libraries.

49. The impact of technology on the library building. Educational Facilities Labs., 1967.

How to incorporate micro-forms into the small library.

50. Institute on Public Library Architecture, University of Southern California, 1957. Living library; planning public library buildings for cities of 100,000 or less. University of Southern California, 1957. 83 p., bibliog.

51. Kaula, Prithvi N. Library buildings: planning and design. New York, Vikas-Oceana, 1971.

A comprehensive work. Originally published in India, therefore some of the climatic considerations do not apply to Canada.

52. Kurth, William Herman. Moving a library. New York, Scarecrow Press, 1966. 220 p. illus., plans.
53. Langmead, Stephen. New library design. New York, Wiley, 1970. 117 p.
Though aimed at academic libraries, much of the information is applicable to the small public library.
54. Larson, Leslie. Lighting and its design. New York, Whitney Library of Design, 1964. 228 p.
Concerned with the design and uses of electric light in architecture.
55. Library automation, a state of the art review. Chicago, American Library Association, 1969. 175 p.
Pages 30-36 deals with building planning implications of automation.
56. Library Architecture Preconference Institute, New York, 1974. An architectural strategy for change; remodeling and expanding for contemporary public library needs; proceedings of the Library Architecture Preconference Institute held at New York, 4-6 July 1974. Chicago, American Library Association, 1976.
57. Library Buildings and Equipment Institute, University of Maryland, 1959. Guidelines for library planners. Chicago, American Library Association, 1960. 128 p.
These Proceedings of the 1st Library Buildings and Equipment Institute sponsored by ALA include the following papers: "The Spaces in Between", "Layout Plans and Library Interiors", "Resilient Floorings for Library Buildings", "Equipment Evaluation and Specifications Writing -- A Panel Discussion", "Library Lighting", "Heating and Ventilating", and "Getting the Most for Your Money". Most pages are devoted to library case studies, with photographs, architectural plans, and comments. Detailed outlines on "Writing Specifications for Library Equipment" and "To Remodel or Not to Remodel" are appended.
58. Library buildings consultant list. LAMA, 1984. 33 p.
59. The library environment; aspects of interior planning. Chicago, American Library Association, 1965.
60. Library environmental design: physical facilities and equipment, by G. Edward Evans, et al. Los Angeles, Institute of Library Research and School of Architecture and Urban Planning; Urban Innovations Group, University of California, 1971. 261 p.

61. Library Equipment Institute, University of Miami, 1962. Library Furniture and Equipment. Chicago, American Library Association, 1963.
Panel discussions covering furniture selection, book stacks, photocopying and card reproduction equipment were presented.
62. Library Buildings and Equipment Institute, Kent State University, 1961. Planning library buildings for service. Chicago, American Library Association, 1964. 127 p.
The Proceedings of the 2nd Major Institute organized and operated by the Section of Buildings and Equipment of ALA includes general papers and panel discussions that emphasize the service aspects of planning library buildings for college and university, public, school and special libraries.
63. Library buildings consultant list, 1982. Edited by Jane G. Johnson. Chicago, American Library Association. 31 p. ISBN: 0-8389-6536-9.
64. Library buildings for Canada. Foreword by Freda F. Waldon, president. Canadian Library Association. Distributed by the Canadian Library Association, 1947? unpagged, illus., plans.
"These articles, sketches and plans were published in the February issue of the Journal, Royal Architectural Institute of Canada."
65. Library Buildings Institute, Chicago, 1963. Problems in planning library facilities; consultants, architects, plans, and critiques; proceedings. Edited by William A. Katz and Roderick G. Swartz. Chicago, American Library Association, 1964. 208 p. illus., bibliog.
66. Library Buildings Institute, Detroit, 1965. Libraries building for the future; proceedings of the Library Buildings Institute, and the ALA workshop conducted at Detroit, Michigan, July 1-3, 1965. Edited by Robert J. Shaw. Chicago, American Library Association, 1967. 208 p. illus., bibliog.
67. Library Buildings Institute, San Francisco, 1967. Library buildings; innovations for changing needs. Proceedings of the Library Buildings Institute conducted at San Francisco, California, June 22-24, 1967. Edited by Alphonse F. Trezza. Chicago, American Library Association, 1972. 293 p. illus.

Sponsored by the Library Administration Division of the American Library Association.

68. Library Equipment Institute. 2nd, St. Louis, 1964. The library environment: aspects of interior planning; proceedings of the Institute sponsored by the Library Administration Division, American Library Association. Edited by Fraser G. Poole. Chicago, American Library Association, 1965. 69 p.
69. Library space planning by J. Anderson. Ann Arbor, Mich., Library Journal, 1976. 80 p. (LJ Special report #1).
70. Lodewycks, K.A. Essentials of library planning. Melbourne, Australia: University of Melbourne Library, 1961.
Author concentrates primarily on planning and designing.
71. Lushington, Nolan. Libraries designed for users: a planning handbook by Nolan Lushington & Willis Mills, Jr. Syracuse, New York: Gaylo Publications, 1979. 289 p. illus.
72. McDonald, J.A. and D.H. Hunt. Public library architecture. Philadelphia: Drexel Institute of Technology, 1967. 99 p.
Lectures and proceedings from a conference.
73. McDonald, John P. Planning library buildings. New Haven, Southern Connecticut State College, Division of Library Science, 1966. 53 p., bibliog.
74. Manual of Library Economy. Bingley: Shoe String, 1977. p. 135-158.
Devoted to furniture and equipment.
75. Marples, D.L. and K.A. Knell. Circulation and library design: the influence of "movement" on the layout of libraries. Cambridge: Engineering Department, Cambridge University, 1971.
Discussion concerning the importance of considering traffic flow when planning a library. Sample floor plans show a variety of arrangements.
76. Marwaha, M.S. Library buildings, architecture and planning: a bibliographical study. Ambala, India, Associated Publishers, 1977. 104 p.

77. Mason, Ellsworth. Mason on library buildings. Metuchen, N.J., Scarecrow Press Inc., 1980. 233 p.
105 library buildings evaluated, mostly university libraries.
78. Metcalf, Downs, Kaser and Shera at Eastern Illinois University, April 10, 1981. Ann Arbor, Mich., Bowker, 1981. (LJ Special report; no. 21).
79. Metcalf, Keyes De Witt. Library lighting. Washington, Association of Research Libraries, 1970. 99 p.
80. Metcalf, Keyes De Witt. Planning academic and research library buildings. Sponsored by the Association of Research Libraries and the Association of College and Research Libraries under a grant by the Council on Library Resources. New York, McGraw-Hill, c1965. 431 p. illus., plans.
81. Moriyama, Raymond. Metropolitan Toronto Central Library; programme and site selection study: a report prepared for the Metropolitan Library Board, by Raymond Moriyama, Albert Brown, and J.G. Ellis. Toronto, The Board, 1971. 45 p. illus., maps.
82. Morris, John. Managing the library fire risk. 2nd edition. Berkeley, University of California, 1979. 247 p. illus.
83. Myller, Rolf. The design of the small public library. Illustrated by Lewis Silverstein. Ann Arbor, Mich., Bowker, 1966. 95 p. illus., bibliog.
84. New academic library buildings I. Ann Arbor, Mich., Bowker, 1980. (LJ special report; no. 16).
The first in an annual series reviewing recent new and remodeled academic libraries. It presents a selection of building projects reported first in the 1976 and 1977 Architectural Issue of Library Journal. For each of the 16 libraries, library director and architect comment on their roles in the project; numerous interior and exterior views provide the reader with a graphic enhancement of the annual LJ statistics on academic library construction.
85. New academic library buildings II. Ann Arbor, Mich., Bowker, 1982. (LJ special report; no. 23).
Twenty recently constructed or extensively remodeled college and university library buildings.

86. New library buildings; architect-librarian assessments. London, Library Association, 1973 and 1974 editions.

87. New library buildings in the Netherlands. The Hague: Bibliotheek en Lektuur Centrum, 1982. 90 p. (Working group on library buildings and equipment of the NBLC).

Selected list of 20 recent public library buildings of Dutch libraries.

88. New public library buildings. Ann Arbor, Mich., Bowker, 1979. (LJ special report #8).

Extensively illustrated with exterior and interior views, floor plans, and special features of each library.

89. New public library buildings - II. Ann Arbor, Mich., Bowker, 1980. (LJ special report #17).

18 public library buildings/remodeling projects chosen from among those first reported in the 1979 Architectural Issue of Library Journal.

90. New public library buildings - III. Ann Arbor, Mich., Bowker, 1983. (LJ special report #25).

Nineteen public library buildings are discussed by their architects and library directors, and illustrated with interior and exterior photographs and, where appropriate, plans and drawings.

91. Orr, J.M. Designing library buildings for activity. London, A. Deutsch, 1975. 152 p.

A concise and practical treatment of both the problems and the steps involved in the planning of new library buildings.

92. Parks, George M. The economics of carpeting and resilient flooring: an evaluation and comparison. Philadelphia, University of Pennsylvania, 1966. 87 p.

93. Pathfinder: an Operational guide for the School Librarian. New York, Harper and Row, 1975. p. 217-223.

On furniture.

94. Pierce, William S. Furnishing the library interior. New York, Marcel Dekker Inc., 1980. 228 p. (Books in library and information science; v. 29).
95. Planning college and university library buildings: a select bibliography. Chicago, American Library Association, 1981. 13 p.
96. Planning libraries for media services. Chicago, American Library Association, 1972. Presentations made at the LAD Buildings and Equipment Section Program, 1971.
97. Plovgaard, S., editor. Public library buildings: standards and type plans for library premises in areas with population between 5,000 and 25,000. London, Library Association, 1971. 129 p.
98. Procurement of library furnishings: specifications, bid documents and evaluations, edited by Frazer Poole and Alphonse Trezza. Chicago, American Library Association, 1969. 150 p.
99. Public library architecture. Philadelphia, Drexel Press, 1967. 99 p. illus., bibliog. (Drexel Library School series, no. 20).

Contents - Twenty-five years of public library architecture, 1941-1966; principles and trends, by J.A. McDonald, Jr. - Public Library architecture; proceedings of a conference, edited by D.H. Hunt.
100. Reader on the library buildings, edited by Hal B. Schell. Englewood, Colo., Microcard Editions Books, 1975. 359 p. illus., bibliog. (Reader series in library and information science).
